Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, this points to the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

RESCUED BY A DOG.

St. Bernard Finds Woman Lost In American Alps.

ALONE FOR FORTY-SIX HOURS

Terrible Experience of Tacoma Girl In September Snowstorm on Top of Mount Rainier—Her Ears, Toes and Fingers Frozen.

Caught in a snowslide and held captive for forty-six hours and at last discovered, Alpine fashion, by a great St. Bernard dog, Miss Lillian Birchard, recently of Davenport, Ia., but now residing with her parents at Tacoma, Wash., is recovering from the effects

AN ANGLE OF EVERGREENS PROTECTED HER.

of the exposure she recently underwent.

With a party of friends and tourists the young woman was attempting to climb to the summit of Mount Rainier near Seattle. When at an altitude of more than 10,000 feet and within a mile of the top, a dense cloud obscured everything and a furious snowstorm set in. Snow fell to a depth of three feet.

In the excitement of seeking a temporary shelter Miss Birchard stepped upon treacherous ice and was hurled from the sight of her companions. Her cries were drowned by the roar of the wind. The men tied ropes to a bare stump and, leaving the women huddled together for warmth, attempted to discover the whereabouts of the girl.

They returned at nightfall, having seen no trace of Miss Birchard. A temporary protection from the storm was built and a sleepless night passed. The next day the storm had subsided. With experienced guides the search was kept up all day without success. The third day Fred Thomas of Tacoma was sent for, and with his big St. Bernard dog the party returned to the scene of the slide.

Within 300 yards of the temporary camp the missing girl was found. A great angle of evergreens fully protected her from the ice and snow and kept off the fierce wind. Though suffering from frozen ears, fingers and toes, Miss Birchard was otherwise uninjured. She was nearly famished from her long fast. It is the third rescue by the same dog.

PREFERS DEATH TO BOOKS.

Pennsylvania Girl Shoots Herself When School Opens.

Emma Graham, eighteen years old, daughter of Burgess J. H. Graham of Elizabeth, Pa., is dying in the Mercy hospital, in Pittsburgh, from a revolver shot in her side, which she inflicted herself. The girl is a member of the graduating class of the high school. School opened Sept. 2, but she had declared that she would not go. When the bell rang she still refused to go, until her mother ordered her to dress and start for the schoolhouse.

"All right," she declared as she started upstairs. A moment later there was a revolver shot and she was found unconscious in her room. She was hurried to Pittsburgh, where it was said at the Mercy hospital that she could not recover.

The only reason that can be assigned for the act is that she did not want to go to school.

Horse Saved the Family.

The instinct of a horse saved an entire family from death on the Pennsylvania railroad at Christiansburg, Pa. Howard Williams, with his wife and three children, attempted to drive across the track, failing to note the approaching passenger train. Just as it swept by the horse reared and swerved sharply aside. The vehicle was upset, its occupants thrown out and slightly injured, but the action of the animal saved the occupants of the carriage.

Cat and Woodchuck Neighbors. Lee and Roy Strong, brothers, while driving in the woods of Wapping, Conn., saw two traps in which a cat and a woodchuck were prisoners. They released the cat, which went over to the woodchuck and awaited its release. When the woodchuck was freed the odd pair vanished into two holes side by side in a nearby bank.

Fall is with Us Fall and Winter Fashions

The leaves are turning a golden hue

And in keeping with nature dame fashion has ordained the same shadings for men's wear. Golden brown intermingled with olive green, white of course the staid and reliable grays are always here.

As usual you will find on exhibition at our stores all the newest shadings and fabrics in pure long-combed wool worsteds, Scotch Tweeds, Dundees, Vatuers, Cassimeres and Cheviots.

Will be devoid of extremes, but full of art. And while we make a scientific study of fashions, it is our aim to apply them only to the extent that they are becoming to the individual and his station in life.

For what would be becoming to a college youth would look ridiculous on his grandfather. We therefore study individuality as well as style.

Did it ever occur to you that there are as many different forms of men's bodies as there are faces? You might as well go into a photograph gallery and try to buy your photograph ready made, as to go into a clothing store to buy a ready made suit. You can come pretty near, but—

We literally photograph your form and make clothes to that form by the most modern method known to the tailoring profession.
